To Whom It May Concern:

Re: Valeriya Trunova  
Mother: Natalia Trunova

The staff of the Institutes has made diagnosis of brain injury and developmental delay for this individual. This person will be evaluated by the staff from June 20, 2011 through June 28, 2011.

Based upon this neurological assessment, a home treatment plan will be constructed.

The staff will then carefully teach this plan to the parents who will then follow it at home. Both the parents are required to attend the evaluations and prescription sessions at each visit.

This person will be scheduled to return every six months for a repeat evaluation and updated neurological program.

For questions, please feel free to contact me.

Sincerely,

Leland J. Green, MD  
Medical Director
